EDUCATION

IIIT Bhopal *Aug 2023 – May 2027*
B.Tech in Electronics and Communication Engineering (ECE)

EXPERIENCE

NullClass Edtech Pvt. Ltd. *June 2025 – July 2025*
Web Development Intern *Remote*
- **Full-Stack Development**: Completed a 1-month remote internship focused on building web apps using React, Node.js, and MongoDB.
- **Project Contributions**: Built UI components, connected backend APIs, and used Git for version control.

PROJECTS

Hotel And Restaurant Website *Jun 2025 – Jul 2025*
MERN Stack · Nodemailer · UPI QR · Cloudinary · Leaflet.js
- **End-to-End Web App**: Developed a responsive multi-page website with hotel info, restaurant menu, online ordering, cart, and checkout functionality.
- **Delivery Location via Map**: Integrated Leaflet.js with draggable pin and Nominatim API for precise user-selected delivery address.
- **Secure Checkout**: Implemented OTP-based email verification and UPI QR payments with automatic order confirmation via Nodemailer.
- **Admin Dashboard**: Built admin panel for order tracking, dish management, and image handling using Cloudinary.

Full-Stack Portfolio Website *May 2025 – Present*
React.js, Node.js, Express.js, MongoDB, Bootstrap, Netlify
- **Overview**: Designed and built a full-stack personal portfolio to showcase projects, skills, resume, and contact form with real-time submission.
- **Backend**: Implemented Express.js server with MongoDB integration to store contact messages securely.
- **Deployment**: Frontend hosted on Netlify; backend deployed on Render with CI/CD setup via GitHub.

Private Chatroom Application *Apr 2025*
React · Node.js · Express · MongoDB · Socket.IO
- **Real-Time Messaging**: Built a secure chat app with private rooms, encrypted messages, live typing status, avatars, and timestamps.
- **Data Persistence**: Stored chat history and user data in MongoDB with support for user authentication and message retrieval.

TECHNICAL SKILLS

Languages: C/C++, HTML5, CSS, JavaScript (ES6+)

Frontend: React.js, Bootstrap, Leaflet.js

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Netlify, Render, Cloudinary

Concepts & APIs: REST APIs, DBMS
